

**25<sup>th</sup> June 2007**

**To Whom It May Concern:**

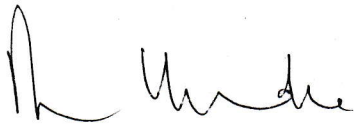

We have been using the software '**Cathlab Reporting System**' (CRS) developed by NextGen eSolutions Pvt.Ltd. New Delhi, 110 017 since June 2006.

This software covers most of the procedures carried out in the CathLab. It also has a unique feature of creating various '**Statistical Reports**' through its '**Statistical data mining**' feature which is very helpful. It also generates the '**Patient Reports**' quickly.

We, express full satisfaction on the performance of the product as well as the after sales support by the company.

I have no reservation in recommending this system to other 'CathLabs'. I wish all the best to '**NextGen eSolutions Pvt.Ltd**'.
